

IMR 5000

IMR® Environmental Equipment is a well-known **AMERICAN MANUFACTURER** located in St. Petersburg FL. IMR® specializes in the manufacturing of gas/combustion analyzer products. We are interested in working with you and helping you establish yourself as a dealer of IMR Products. Please review the below information about IMR®.

Our company designs and builds the following instruments in **AMERICA**:

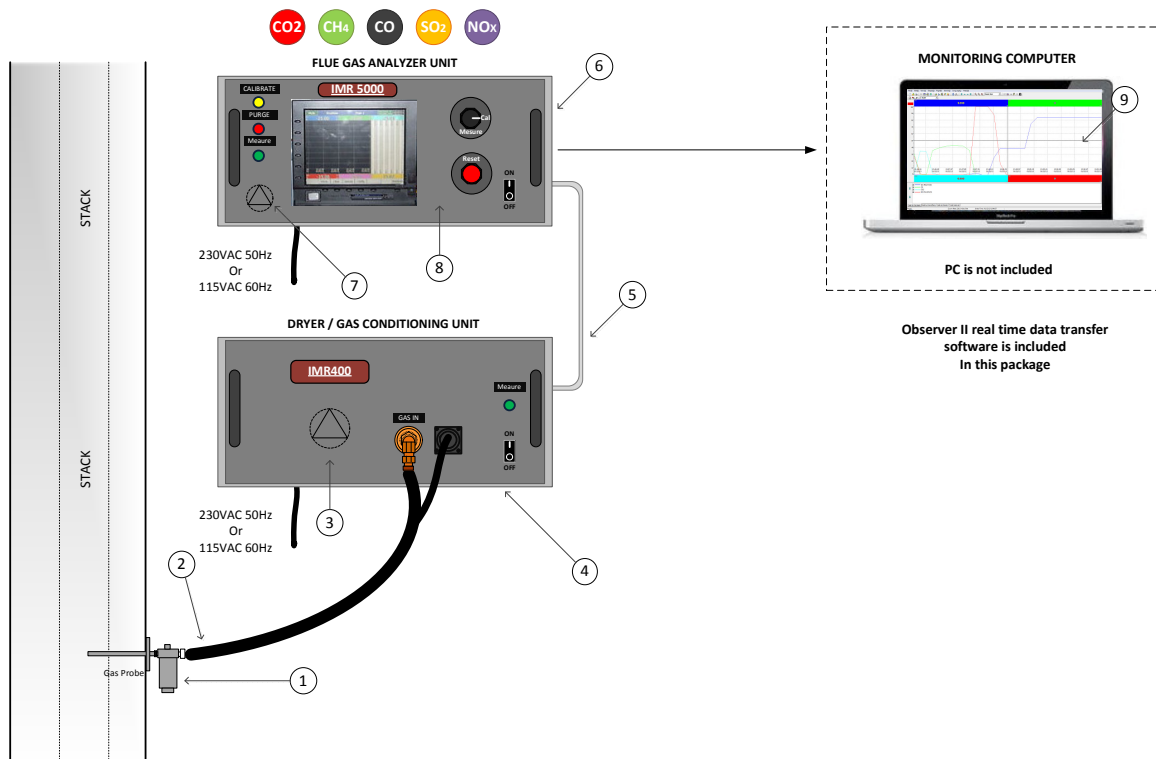

- Portable
- Handheld
- Stationary gas/combustion analyzers (CEMS)

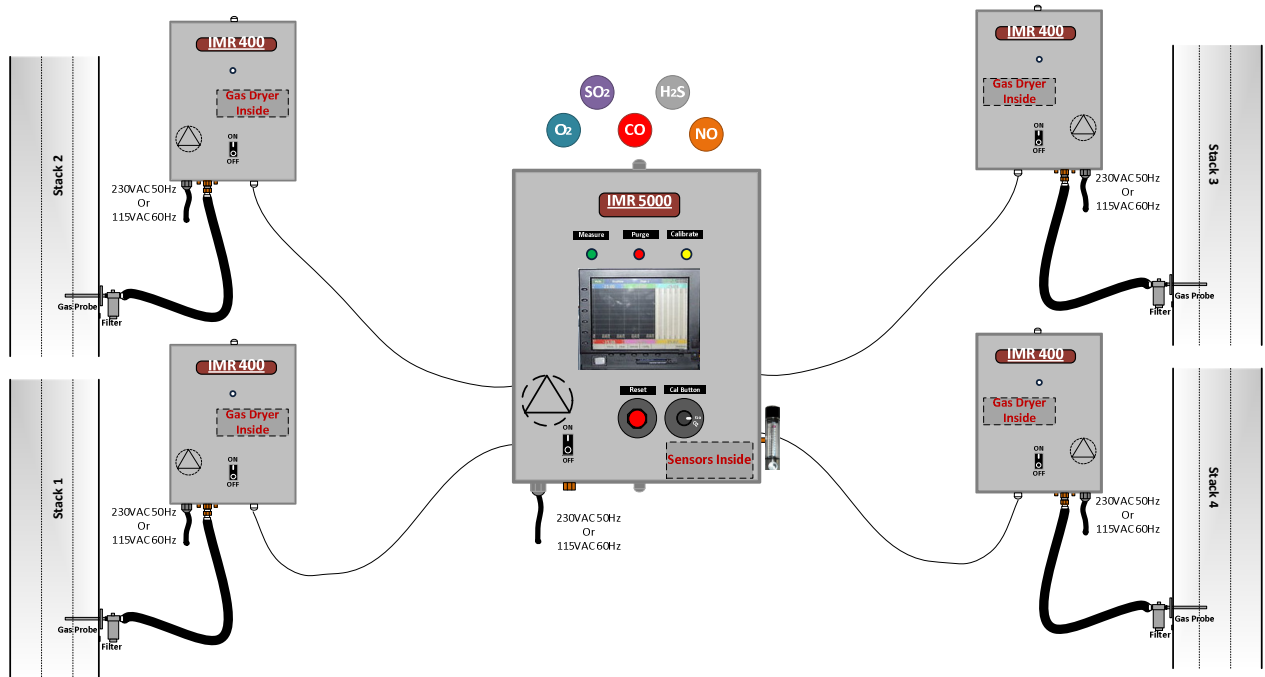

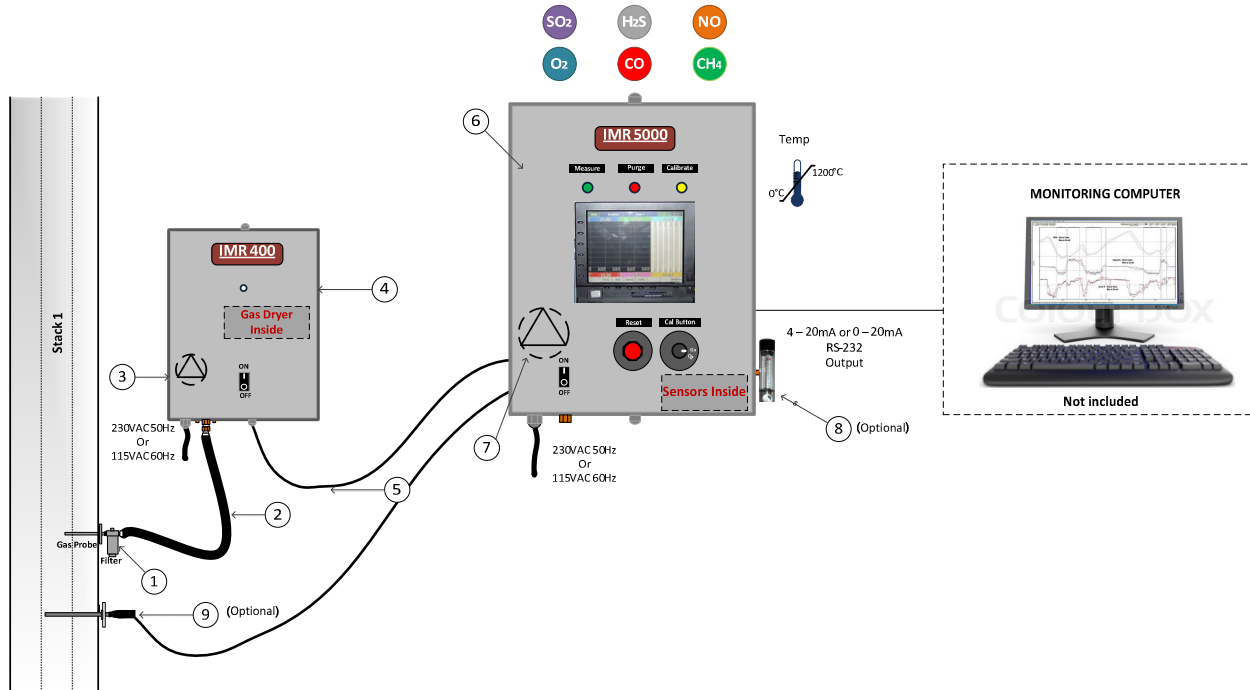

Our company is also preferred around the world due to our capability to customize each of our instruments to meet customer's project requirements, demands and needs.

At IMR®, we are proud of the high quality of our product and excellent customer service.

On this occasion, we are introducing our new IMR 5000 CEMS (Continuous Emission Monitoring System).

Our CEMS can continuously and simultaneously monitor up to 18 parameters at the time. It is a completely customizable system. The system can be setup as a 19 inch rack mount unit, or a stand-alone system (floor mount or wall mount).

In addition, the IMR 5000 can be equipped to analyze multiple stacks with simultaneous or alternating measurements.

IMR 5000

The flexibility of the IMR 5000 CEMS allows it to offer an endless set up of possibilities to measure different parameters like **CO, CO₂, NO, NO₂, CH₄, HC, NH₃, Cl₂, HCl, H₂, O₃, SO₂, H₂S, O₂, °C, °F**, and other parameters on request.

Moreover, the IMR 5000 CEMS can calculate additional parameters like:

- CO₂ (O₂ Sensor must be installed in unit)
- Efficiency / Losses
- Excess air / Lambda
- Flue gas velocity
- O₂ reference

Other additional features that the IMR 5000 CEMS can offer

- Memory
- Real Time Data Transfer
- Software (Observer II) for hourly, daily, weekly, monthly and customized reports

For more information regarding our IMR 5000 CEMS or any other IMR products, you can visit our website www.imrusa.com or contact us by e-mail @ info@imrusa.com
